Alright, lovebirds, let's talk wedding planning. We know that when it comes to designing your dream day, it can feel like stepping into a blank canvas. I mean, where do you even start? With a venue that's a blank slate and a warehouse full of decor elements to choose from, it's easy to feel overwhelmed.

This checklist is your secret weapon, with all the decor elements you need to consider, so you won't forget a single detail. But here's the best part: this checklist is totally customisable. You can pick and choose what to include or omit. It's all about making your wedding day a true reflection of you and your love.

So pop a mark in the boxes of the pieces that are priorities for you. Then send in your list and some styling images that you love! From there we will work out an initial quote with the costs of styling the different elements that you consider important. After you have an idea of costs and a budget for your day we will arrange a time to discuss the quote and finalise the styling plan.

## the "I do's"

Let's chat about your wedding ceremony – it's super important, it's where all the official part and the real lovey dovey bits happens! But your guests won't be sticking around forever so you don't need to spend your entire budget on the ceremony decor.

- arbor, arch or backdrop*
- and florals*
- guest seating*
- signing table and chairs*
- aisle runner*
- start of aisle arrangements*

Here's the express version of styling your ceremony:

**A backdrop that wows:** Set the stage of your nuptials with some wow factor! This is where the magic happens – go big or keep it sweet and simple, it's totally up to you!

**Guest seating:** Get comfy and stylish seating for your guests. They won't be here forever though, so we suggest seating about a quarter of your guests. We suggest 24 chairs so that those who want to sit down can.

**Aisle style:** Give your walk down the aisle a little pizzazz. Sprinkle petals, lay down a runner or rugs, light some lanterns, and really make an unforgettable entrance!

You might think that all the socialising happens during the reception, but let me tell you a little secret – the real party starts during cocktail hour! That's right, this is when the mingling, the laughing, and the clinking of glasses really kicks into high gear.

Your reception is going to be a whirlwind of dinner, speeches, dancing, and drinks. It's like a circus with all the acts happening one after another. That's why it's crucial to allocate some of your wedding budget to decking out your cocktail hour.

So, what should you focus on when it comes to cocktail hour decor? Well, there are a few key players in this game. First up, the bar. Make sure it's well-stocked, well-styled, and ready to quench everyone's thirst.

Next, the snack table. Picture this: a mouthwatering spread of delicious bites and nibbles that will make your guests go "Mmm!" as they mingle and munch. It's all about keeping those tummies happy!

Have available some comfy couches, umbrellas to keep off the sun, or blankets and cushions to snuggle with, throw some rugs in, ottomans and you have a zone that is completely chill.

And finally, we can't forget about the lawn games. Set up some games like cornhole, giant jenga, or even a friendly game of croquet. Trust me, your guests will love a little friendly competition to keep the party vibes going strong.

Your reception is THE place where your guests will be hanging out, chatting, and making memories the most. So, naturally, it's kind of a big deal. And let me tell you, the tablescape is the star of the show!

Let's break it down... Centerpieces are the showstoppers. They're the eye candy that grabs everyone's attention and says, "Hey, look at me! I'm amazing!" Whether it's lush floral arrangements, cascading greenery, or creative arrangements that reflect your unique style, go big and bold or keep it sweet and simple – it's your time to shine!

This seasons trend is all about adding in beautiful linens. Choose fabrics, textures, and colors that reflect your wedding theme and enhance the ambiance by creating a sensory experience for your guests.

Let's make your reception an unforgettable feast for the eyes!

## centrepiece of attention

- bottles / single stem vases
- candle holders - dinner
- candle holders - pillar
- candle holders - tealights

- table cloths or runners

Ah, the grand finale of your wedding day – the reception! This is where the real party happens, where your guests let loose and dance the night away. This is your time to shine, to let your creative juices flow, and to personalise every little detail to reflect who you are as a couple.

It's like putting the icing on the cake or adding that cherry on top – it's the perfect opportunity to showcase your style and make your guests go, "Wow!" So, let your imagination run wild, my friends, and create a reception that's as unforgettable as your love story. Get ready to dance the night away and celebrate in style!
